Unknown File

The file named `agency_jp.txt` was not expected.

This may be a misspelled file name or the file may be included in a subdirectory. Please check spellings and make sure that there are no subdirectories within the feed in `agency_jp.txt`

The file named `translations.txt` was not expected.

This may be a misspelled file name or the file may be included in a subdirectory. Please check spellings and make sure that there are no subdirectories within the feed in `translations.txt`

Unrecognized Column

Unrecognized column `jp_parent_route_id` in file `routes.txt`. This might be a misspelled column name (capitalization matters!). Or it could be extra information (such as a proposed feed extension) that the validator doesn't know about yet. Extra information is fine; this warning is here to catch misspelled optional column names.

in line 1 of `routes.txt`
